

SPECIFICATII TEHNICE

Importmag

Mini Excavator 1.2 Tone

Motor: KUBOTA

Capacitate cupa: 0.022 m3

Putere nominala: 10.2 kw / 2200 rpm

NEW DESIGN IN 2022

MINI EXCAVATOR

ISO CE EPA EURO5

PRODUCT INFORMATION

Certification:

Engine	KubotaD722	Max.Digging Height	2490mm
Engine Power	10.2kw / 2200rpm	Max.Dumping Height	1745mm
Engine option	KOOP192FA/Briggs & Stratton	Max.Digging Depth	1725mm
Bucket Capacity	0.022m³	Max.Digging Radius	3030mm
Chassis Width	930mm	Configuration	NHI Multi-way Valve
Track Length	1200mm		Dali Traveling Motor
Track Width	180mm		Eaton Swing Motor
Transpot Length	2870mm		Tianji Hydraulic Pump
Transpot Length	2285mm		
Turning Radius	1490mm		
Overall Dimension	2870*930*2285mm		
Operating Weight	1200kg (without cab)		
	1300kg (with cab)		

PRODUCT DETAIL

The latest TE-12 model, our new 1 ton Mini Excavator designed in 2021, Not only improve work efficiency, but also improve appearance.

Stick Cab

Stick cab, safety and stability, cab can be installed.

Powerful Engine

The engine has the feature of higher efficiency , lower fuel consumption.

Boom & Arm

Boom & Arm is manufactured in the highest strength steel to ensure the highest quality consistent with the lowest weight possible.

Dozer Blade

Reinforcement design, stronger working ability.

Operating Lever

Simple, flexible and easy to operate.
