Mini Excavator 1.8 Tone

Motor: KUBOTA

Capacitate cupa: 0.03 m3

Putere nominala: 10.2 kw

MINI EXCAVATOR

PRODUCT INFORMATION

Certification:

ISO CE EPA EURO5

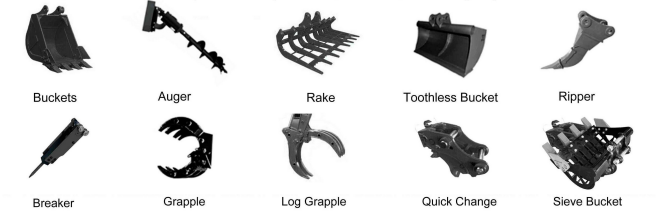

Operating weight	1800kg	Maximum excavation height	3010mm
Bucket capacity	0.03m³	Maximum unloading height	2285mm
Engine Model	kubota D722/KM385B	Maximum excavation depth	2050mm
Rated output power	10.2kw/28kw	Maximum vertical arm excavation depth	2010mm
Maximum travel speed	2km/h	Maximum excavation distance	3260mm
Maximum climbing ability	30°	Minimum turning radius at front end	1418mm
Total length (Transportation)	3110mm	Maximum excavation ground distance	2940mm
Total width	1100mm	Maximum bulldozing depth	150mm
Total height	2280(2242)mm	Maximum bulldozing height	290mm
Hydraulic pump	Gear pump	Configuration	Northern Heavy Industries multi-way valve
Platform clearance	402mm		
Standard bucket width (with / without side teeth)	430/400mm		

PRODUCT DETAIL

The TE18 model bagger adopts Kubota D722 diesel engine, meets Euro V and EPA4 emission standards, meets environmental protection requirements, Low noise, Kubota engine parts are universal.

Ergonomic and a reliable design

Surface treatment: plastic spraying

The hydraulic joystick gets the job done comfortably and efficiently.

Custom weights with one-piece cast steel
